

ELEMENTARY VALIANT NEWS

HOMECOMING WEEK!

That's right, Valiants, last week was the 2022-2023 "Road Trip" Homecoming Week! From fun activities starting on Monday all the way to the Friday parade and football game...yay! Throughout the whole week, our students and teachers participated in a series of activities like Extreme Volleyball...

...Obstacle Courses, Extreme Basketball, Freeze Dancing, and so much more. Did you have fun Valiants? We sure did! Teachers, elementary, middle school, and high school students all had a part in joining these fun activities. Thank you for also participating in the penny wars. We raised so much for our school endowment and sister school in South Sudan. Way to go, Valiants!

DANCING WITH THE VALIANTS

K-12 students got to dance their heart out and represent their Homecoming cities with awesome routines. From ballroom dancing to freestyle, these talented dancers did a great job.

Let's not forget our judges! We thank Ms. Brown, Mrs. Banham, Coach Roe, and our special guest, Dr. Gerald Durley, who all watched and judged our dancers. What an awesome night!

HOCO PARADE & GAME!

Last Friday, we had an amazing parade down Coldwater Canyon...that's right, SG stopped traffic and walked all the way to LA Valley College for the varsity football game. Cheering families gathered along the sidewalks. Great job to our football players who tried their hardest and all the teams for an outstanding halftime show. What a thrilling end to Homecoming!

ELEMENTARY VALIANT NEWS

Let's See What Our Super 6th Grade is Doing!

Right now, six grade is learning lots from their teachers, Mrs. Morales and Mr. Lopez. For religion, they're making rosaries out of cereal for this month. What an educational activity to help students remember how to pray the rosary! Students are solving whole number addition equations and learning about thermal heat and energy. In ELA, students started writing/revising their personal narratives while reading the novel "Tiger Rising". They are also learning about the Paleolithic and Neolithic times. Great work 6th grade - *there's so much to do and learn!*

Tips for the Trimester!

One major tip to be a successful student is **organization**. We first have to create a positive environment to learn, study, and do homework. Without this, we can get distracted, work slower, and make things harder on ourselves. You may be wasting time looking for items. Being organized will help us to locate our papers, supplies, instruments, etc. You can be more efficient and productive in class. Staying organized is very important for these main reasons. So try to make it a habit to stay organized this trimester!

Breast Cancer Awareness Month

The month of October is also a month to spread awareness about breast cancer. October 13 is Metastatic Breast Cancer Awareness Day! In honor of this, here are a few facts you may, or you may not have known before.

- Breast cancer is found in 1 out of every 8 women and 1 out of every man.
- Breast cancer is usually found in people who have a poor diet, air pollution, alcohol consumption, and tobacco use.
- Early detection can catch the disease when it is most treatable.
