## Celebrating Our Athletes

The Sports Banquet or Sports Awards Night, is an event celebrating our student athletes. This evening, we recognize our Elementary and Middle School students playing in football, basketball, volleyball, and soccer. In each team, coaches give out awards for Valiant Spirit, Most Improved, MVP, and Coach's Award. We celebrate the work and accomplishments of all of our student athletes. During this night it was also announced that the Boys Volleyball made it into playoffs. Our Soccer team made it into playoffs as well! Great job Valiants for such an amazing year of sports. Keep up that hard work! Thank you Shakey's for hosting the event.

## Boom, Bam, Ding! Student Musicians Are Really Doing their Thing

The spring concerts are finally here! This Wednesday and Thursday night, we had our annual band concerts. Students from 4th through 8th grade got to play their wonderful music that they have learned and practiced throughout the school year. From slow, beautiful pieces to fun, upbeat music, there are so many types of songs to hear. Students present their skills and awesome abilities during the concert. With the help of Mr. Williams, Mr. Delgado, and Mr. Tubbs, students were able to come out and play their hearts out. A special shout out to Ms. Banham for hosting a beautiful art show. We are so proud of our students! Thank you to all the parents who came to support the band and art programs.

## Spotlight: First Communion

Student Council: How do you feel after having your first communion?

Emmie, 2B: “I was able to go up near the altar and watch the priest bless the bread!”

Gianna, 2B: “I feel happy and excited because whenever we have our school mass, we are able to eat bread with the older students.”

Riley, 2B: “Good and awesome. I am happy I got to go and receive the bread.”

Last Saturday, the 2nd graders and other students had their First Communion. During this very momentous day, students received the Sacrament of the Eucharist for the first time. During this sacrament, we receive the Body and Blood of Jesus Christ. We become one with Christ and are united as one. This is a special day as they have become closer to Christ and continue to grow their faith as Catholics.

## Let’s Talk About Science, Science, Science!

From an abundance of potato batteries, lingering bacteria on petri dishes, growing plants, and more, students from Kinder to 8th Grade have had the chance to share their wonderful science projects to the annual Science Fair! With colorful boards and loads of dried markers and construction paper, our fellow students were given the opportunity to use their knowledge of the scientific method to the test.

Our hallways are filled with multiple colorful boards, lots of new information, and knowledge waiting to be shared. Be sure to check out the great experiments conducted by your fellow classmates! There is never too much to learn!
