

SGHS VALIANT NEWSLETTER

THE LAST WALK

It's that time of the year where we officially tell our seniors, the class of 2023, goodbye. It is a Saint Genevieve tradition for seniors to take their last walk throughout the entire school campus. Students from the elementary school, middle school and high school line up forming a tunnel for the seniors to walk through. We cheer them on as they are on their way to begin the next part of their life journey. It is a moment of joy, pride and also sadness as they give their fellow underclassmen and other Valiants hugs and farewells. We are so proud of their accomplishments and leadership exemplified throughout their years here at SG.

Last senior walk

“It was a surreal moment. I remember walking through this school as a little 5-year old and to now be walking through it again for the last time as a graduating senior is a blessing but overwhelming. I’m forever grateful for my experience here.” - senior Marcus De Vera

NIGHT SCHOOL: DR. JULIA GARCIA

On Thursday night, St. Genevieve welcomed motivational speaker, Dr. Julia Garcia. It was the perfect way to end of the year with our seniors. She gave us an important message that inspired many. Dr. Julia Garcia spoke about the importance of opening up when life gets hard and not letting yourself crash down alone. It was a message of hope and relief for many. Our wonderful choir, acappella group and Mamma Mia cast also sang us a few numbers. Our acappella group actually won a 5500 dollar cash prize at their competition out of dozens of schools. Last but not least, the seniors lead us in our last alma mater and fight song with the entire school. It truly was a terrific and memorable night!
