## Healing the World with Our Hands

Recently, our K-5th grade students did a **fun “hands on” activity** to celebrate Earth Day. **Earth Day** is the day that we celebrate our beautiful planet. It’s also a reminder to continue to take care of our environment. In honor of Earth Day, our K-5th graders did an activity decorating a print-out of a hand. The students had a lot of fun making their **“Helping Hands”** with beautiful and creative designs. These hands were posted on a poster titled **“Healing the World With Our Hands”**. This colorful poster shows that hand in hand, together as one, we can make the world a better place and heal the earth. **Let’s make sure that we are all doing our part to keep the environment clean** because even our small acts can have a big impact. Happy Earth Day!

## PE Class with Coach Gable!

With Coach Garcia on a leave, we have none other than **Coach Gable** to teach our **Valiant K-8th graders PE class**. Coach was a two time All Star in the CFL. He’s also St. Genevieve’s **Varsity Running Back coach**. His experience on health, wellness, and sports makes him a great PE coach. His class consist of jogging, running, and structured activities. There’s also **fun games and exercises**, such as soccer, volleyball, or stretching to teach students about injury prevention. Let’s make sure to give Coach Gable a warm welcome as our PE teacher!

## A Travel Through Time: 5th Grade Field Trip

In a small farm far away from our school, our wonderful **5th graders** went on a **journey through time**. Along with the animals at **Riley's Farm**, the 5th graders experienced **life in the American Revolution**. They got to learn about the etiquette of the time, and how the colonists would live through **hands on learning**. They learned about the games kids used to play, weaving, and other techniques that they would use back in the day. At the end, the students got to participate in a battle reenactment between the American Colonists and the British. Their field trip at Riley's Farm was both an educational and fun time for our 5th grade. What a wonderful learning trip!

## Exploring Nature's Wonders: 3rd Grade Field Trip

Welcome to our **3rd-grade field trip** recap! Our young explorers embarked on an exciting journey filled with learning, discovery, and fun. They went to **The Natural History Museum of LA County**. At this museum, our 3rd graders got to see many exhibits such as the **nature lab, discovery center, and the dinosaur hall exhibit**. Hear from our young adventurers as they share their favorite moments, newfound knowledge, and memorable experiences from the trip. Third grader Enzo Santiago said, "My favorite part of the field trip was the scavenger hunt and the dinosaur fossils." Until their next adventure, **may the spirit of exploration guide us to new discoveries and deeper understanding of the world around us**.
